

KOBRA CARRY

The Kobra Carry is a perfect choice for those who prefer a smaller model 1911, but insist on complete reliability. The slide has been reduced to the minimum possible (4.25") without significantly impairing the legendary reliability of the 5" slide. The frame has been modified with the innovative Ed Brown Bobtail® housing which reduces the projecting butt of the mainspring housing without sacrificing the full size frame and magazine capacity. The Bobtail® minimizes the print under your jacket when carrying and reduces weight. The functional simplicity has yet to be matched. Unique with the Carry series pistols is the innovative snakeskin treatment. It is a directional pattern, meaning it is smooth to slide your hand up, but bites in for a snug grip the other way where you need it. It's easier on the hands than checkering, and those who handle it can't stop bragging about it. Not to mention it just looks cool! The Kobra Carry is an innovative masterpiece, and a serious tool for those who want something a little different. We are sure you'll be charmed by the Kobra Carry!

KOBRA CARRY SPECIFICATIONS
