

Ed Brown LS10

Long slide, 10mm for tack driving accuracy

Ideal for long range target work and handgun hunting, the long slide has been a highly sought after pistol for 1911 aficionados, and is the perfect companion to the 10mm cartridge. The increased barrel and slide length take advantage of the higher velocity of the 10mm, while the longer sight radius allows for the tack driving accuracy, all making this exquisite pistol a joy to shoot. While no stranger to the range, this LS10 will be equally at home in the woods, hunting hogs for example. Available with a Trijicon RMR or a more traditional adjustable sight, and fully customizable to meet your needs. Built with 100% **Hardcore®** parts and backed by a LIFETIME warranty. Whether you're on the range or in the field, the LS10 is the perfect choice!
