Terms and Conditions for Installation Service

- * We offer installation services for Ed Brown parts only; we do not offer gunsmithing or any other custom modifications or machining operations such as checkering your frame.
- * We work on blue or stainless guns only. No aluminum or special finish guns of any type can be accommodated. This includes but is not limited to Parkerizing, Hard-chrome, or any type of coating. We can accept work on high polish stainless steel but at an additional charge, subject to a quotation after an "in-shop" evaluation.
- * **We will not deactivate any safety device for any reason.** If we find any safety device to be disabled or missing, we **must replace it and charge you for it.** This does not include trigger locks such as the ILS housing system.
- * Payment is due in full at the time of completion and must be received before the gun leaves our shop. We recommend you send full payment with the firearm, as our turnaround time is seldom longer than 2 weeks, and if we must contact you for payment arrangements your order is unnecessarily delayed. Acceptable forms of payment include Visa, MasterCard, or certified funds. All personal checks will be a minimum of 10 days for clearance.
- * A slide may be sent via US mail or ground service. A handgun is considered to be a serial numbered frame and **requires** express shipping. Call us for shipping instructions on a frame or handgun. We will return a slide via ground service which costs \$19.95 for the continental US, and \$35 for Hawaii and Alaska. A frame/handgun will be shipped express service, which costs \$50 and includes \$100 of insurance. If you wish to purchase additional insurance, the cost is \$10 per \$1000 of insurance added. Both services will be shipped signature required.
- *Effective April 24, 2006, pursuant to the Child Safety Lock Act of 2005, every firearm or handgun frame shipped to us by anyone other than a valid FFL holder, must include a gun lock, such as a cable lock. If it does not, we must supply one and charge you for it before releasing the firearm for shipment or pick-up. The cable-locks we stock are \$5 each.
- * Please do not send any items not necessary for performing the work, shipping cases and gun locks are the only exception. Please include your name and address securely taped to any gun case you use for shipping your firearm to us.
- * Shop times average less than two weeks.
- * A \$25 minimum order charge applies.

No liability is expressed or implied for damage or injury which may result from our installation service. It is sold as is and without any warranty. The user accepts the full risk and responsibility for ordering these modifications and operating the firearm. I fully understand the risks and responsibilities in ordering these modifications, and further understand and agree to the terms and conditions listed above. I understand that this order is non-refundable, and due to its nature cannot be canceled. I also authorize Ed Brown Products, Inc. to charge the total balance due to my credit card upon completion, if I have so specified above.
