

CCO

The CCO is ideal for carry. Built on our compact (Officer's) size frame, and combined with a round butt housing and concealed carry beavertail grip safety, we had concealability in mind when designing this gun. A Commander slide maintains a longer sight radius and allows for maximum reliability. Snakeskin metal treatment on the frontstrap, mainspring housing and slide provides a secure grips and is less aggressive than checkering. The fixed black rear sight is mated with a high visibility red fiber optic front sight. Custom features include a recessed slide stop, flush barrel with recessed crown, and heavy chamfer. Also available in a lightweight aluminum version. Built with fully machined parts by our skilled pistolsmiths, fully customizable, backed by our Lifetime Warranty and the best customer service in the industry.
