

# EVO-CC09-LW

The EVO CCO Lightweight is the ultimate carry gun! Our smallest, thinnest and lightest 1911 offered to date. Optimized for 9mm, the EVO-CC09-LW retains 100% 1911 controls and handling characteristics. Built on our lightweight aluminum compact (Officer's) frame, and combined with a round butt housing and concealed carry grip safety for maximum concealability. Includes modern improvements such as the new external extractor, easy to-change front sight, smaller "Tactical Edge" rear sight, bull barrel, and a flat wire recoil spring system. The slide is shortened to 4" and thinned substantially for weight reduction, and includes a unique 7-top custom cut, with special front and rear serrations. A recessed slide stop and slim grips completes the package.
