

EXECUTIVE COMMANDER

The Executive Commander is essentially the Executive Elite in a Commander length. The slide has been reduced to the minimum possible (4.25") without significantly impairing the legendary reliability of the 5" slide. Classy and traditional, the 25 LPI checkering on the front strap and mainspring housing, is not too rough on the hands and allows for a secure grip. The slide is adorned with a french border, ball endmill cuts, flattened and serrated top and serrated rear, and topped off by a plain black fixed rear sight and gold bead front sight. The Executive Commander is a modern twist on a classic design.
