

ZEV 1911

Brown Products, is excited to renew our collaboration with ZEV Technologies for 2019, with the production of a new, one-year only limited edition EB/ZEV 1911. The leaders at Ed Brown Products and ZEV Technologies have once again combined and leveraged their respective strengths to create something truly extraordinary. The perfect marriage of ZEV's unique styling with Ed Brown's classic quality 1911, this new collaboration builds on the success of the prior year EB/ZEV pistol, and takes it to a new level. Incredibly sophisticated slide cuts show off both ZEV's innovative designs, and Ed Brown's state-of-the-art custom machining ability. Just a few of the highlights include: 9mm Commander SR barrel with ZEV dimples, ZEV slide cuts, Alien forestrap and housing, lightrail with scallops, Trijicon RMR, blended magwell, recessed slide stop with serrated pin, and G4 black coating finish out this show-stopping masterpiece of functional artistic craftsmanship. As with all Ed Brown 1911's, it is hand-fit with fully machined parts, and backed by our Lifetime Warranty.
